

Dear Customer,

Please note the following information regarding parts used to maintain your 2008® Series Equipment.

WARNING! Only Original Equipment Manufacturer (OEM) Fresenius Medical Care spare parts should be used in the repair or upgrade of Fresenius Medical Care 2008 Series Hemodialysis Systems. Although non-OEM parts may look similar to parts in various vendor catalogs, on-line listings or brick and mortar stores, the Fresenius Medical Care 2008 Series Hemodialysis System uses OEM parts that have been specified and tested in accordance to ANSI/AAMI/ISO guidelines.

Any spare parts, whether new or refurbished, purchased from any third party other than Fresenius Medical Care (a “Third Party Part”) or a qualified/authorized Fresenius Medical Care Distributor in any of its Fresenius Medical Care Hemodialysis Equipment during the warranty period shall immediately void any and all associated warranties of Fresenius Medical Care for the remainder of the applicable warranty period. In addition to voiding applicable Hemodialysis Equipment warranties, the use of a Third Party Part may cause undesired equipment operation and may cause patient harm. Fresenius Medical Care is not liable for issues caused by the use of any Third Party Part or unqualified services on the Fresenius Medical Care Hemodialysis Equipment.

Fresenius Medical Care shall repair or replace, at its option, using new or reconditioned parts and/or subassemblies, any parts under warranty that are proven defective in materials or workmanship. Such repair or replacement shall be made without cost to the customer and Fresenius Medical Care reserves the right to determine the location where the repair or replacement will be completed.

For information regarding spare part identification and locations within the machine, please refer to the **2008 Series HD Machine Spare Parts Manual, Part Number: 490124**. To order a spare part please call **(800) 227-2572 Option 3** – Spare Parts Department, to place an order. For technical questions on parts please call **(800) 227-2572 Option 4** then **Option 1** – Tech Support Department.
